MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. Brzezinski,
23 August 1978

3. Response to Senator Bayh. Brzezinski thought our proposed response as outlined in my talking paper was all right. We are authorized to go ahead. He had been informed that we were going to release some documents to Bayh at the same time and he wanted his people to review those documents. I told him I didn't know of any documents being released and there were none mentioned in my proposed letter. I therefore left it that I was going ahead with the letter, but if there were any documents to be sent in conjunction with it I would make sure we had their approval for that before we sent the documents.
